ABOUT ME

I am self-motivated, passionate, responsible and hard working engineer looking for a position in a company where I could launch my career and have opportunity to build a valuable skill set in software development. I would like to enhance my technical and soft skills by taking up challenging tasks and expanding my practical knowledge.

EDUCATION

2019 - 2023

BS in Computer Science.
Comsats University Islamabad.

2016 - 2018

HSSC (Pre-Engineering)
Superior Group of Colleges Rawalpindi

2014 - 2016

SSC (Matric Science)
MR. Cabin Public High School Rawalpindi

WORK EXPERIENCE

Web Developer March 2023 - Sept 2023

DIGITAL VISION, RAWALPINDI

- Developed web portal by using PERN.
- Worked in Human Resource Management System (HRMS) developed with ReactJS, NodeJS and PostgreSQL.
- Used RESTful APIs to connect the application to the backend services.
- Contributed in queries writing for HRM system.
- Created frontend components and backend API interface in the development of App.

INTERNEE

June 2022 - Jan 2023

Softify Technologies Rawalpindi

- Designed websites by using ASP.NET MVC and ASP.NET Core frameworks.
- Created database for web projects using MySQL and MS SQL Server.
- Designed website UI by using HTML5, CSS3, Bootstrap and JQuery.
- Designed responsive websites for desktop and mobile devices.
- Debugged and resolved application issues to improve functionality and user experience.
- Developed windows application using .Net Windows Form (WinForms).
- Implemented and maintained backend services using MS SQL Server.
- Used Git for version controlling of website projects.

MY PROJECTS

1. Developed "We Protect You" (FYP) project in ASP.NET MVC framework with C# language and MS SQL Server for it's database.
 - The project is charity donation system for the NGO, donors and needy persons.
 - The Needy Person can add a request post according to requirements (Money, Groceries, Medicines and Clothes etc.)
 - The Donor and NGO can donate to needy person.
 - The NGO can also ask help from Donors.
2. Developed "Football Ground Booking System" project by using PHP, Ajax, HTML, CSS, JS and MySQL. Project modules are:
 - Teams can book a ground.
 - Teams can see available teams in a ground and schedule a match with that team.
 - An event organizer can organize leagues.
 - Each team can see league's point table.

SKILLS SET

- Programming Languages (JavaScript, PHP, C#)
- Database (PostgreSQL, MS SQL Server, MySQL)
- JavaScript Frameworks (React.js, Node.js)
- .Net frameworks (ASP.NET MVC, ASP.NET Core, Windows Form)
- UI design/Frontend (CSS, HTML5, Bootstrap, jQuery libraries)
